The Linux kernel is released under the GNU General Public License version 2
(GPLv2)

NOTE! This copyright does **not** cover user programs that use kernel services by normal system calls - this is merely considered normal use of the kernel, and does **not** fall under the heading of derived work. Also note that the GPL below is copyrighted by the Free Software Foundation, but the instance of code that it refers to (the Linux kernel) is copyrighted by me and others who actually wrote it.

Also note that the only valid version of the GPL as far as the kernel is concerned is this particular version of the license (ie v2, not v2.2 or v3.x or whatever), unless explicitly otherwise stated.

Some further comments:

Every effort has been made to ensure that Festival does not contain any violation of intellectual property rights through disclosure of trade secrets, copyright or patent violation. Considerable time and effort has been spent to ensure that this is the case. However, especially with patent problems, it is not always within our control to know what has or has not been restricted. If you do suspect that some part of Festival cannot be legally distributed please please inform us so that an alternative may be sought. Festival is only useful if it is truly free to distribute.

As of 1.4.0 the core distribution (and speech tools) is free. Unlike previous versions which had a commercial restriction. You are free to incorporate Festival in commercial (and of course non-commercial systems), without any further communication or licence from us. However if you are seriously using Festival within a commercial application we

would like to know, both so we know we are contributing and so we can keep you informed of future developments. Also if you require maintenance, support or wish us to provide consultancy feel free to contact us.

The voices however aren't all free. At present the US voices, kal and ked are free. Our British voices are free themselves but they use OALD which is restricted for non-commercial use. Our Spanish voice is also so restricted.

Note other modules that festival supports e.g MBROLA and OGI extensions, may have different licencing please take care when using the system to understand what you are actually using.

A number of individual files in the system fall under a different copyright from the above. All however are termed "free software" but most people.

This package was put together by Joey Hess <joeyh@master.debian.org>, using sources from:

This directory contains a lexicon (wsj.wp39.poslexR) and an ngram (wsj.wp39.tri.ngrambin) for English part of speech tagging. Information in these files were derived from the Penn Tree Bank distributed by the LDC, in turn derived from data from the Wall Street Journal. These models fall under the following copyright without conflict from the material the models were trained from

This is the Debian GNU/Linux prepackaged version of Net-SNMP.
```

This package was put together by David Engel <david@debian.org>, from sources obtained from <http://net-snmp.sourceforge.net/>. It is now maintained by Jochen Friedrich <jochen@scram.de>. As of version 5.4, the upstream sources contain non DFSG-free RFCs in the doc directory which has been removed for Debian.

Copyright:

Various copyrights apply to this package, listed in various separate parts

below. Please make sure that you read all the parts. Up until 2001, the project was based at UC Davis, and the first part covers all code written during this time. From 2001 onwards, the project has been based at SourceForge, and Networks Associates Technology, Inc hold the copyright on behalf of the wider Net-SNMP community, covering all derivative work done since then. An additional copyright section has been added as Part 3 below also under a BSD license for the work contributed by Cambridge Broadband Ltd. to the project since 2001. An additional copyright section has been added as Part 4 below also under a BSD license for the work contributed by Sun Microsystems, Inc. to the project since 2003.

Code has been contributed to this project by many people over the years it has been in development, and a full list of contributors can be found in the README file under the THANKS section.

***** m4

This is the Debian prepackaged version of the FSF's GNU m4 macro processor. GNU `m4' has been originally written by Renv© Seindal, from Denmark, with subsequent changes by Fran/Bois Pinard and other volunteers on

the Internet. A list of contributors to the GNU program is in the THANKS file in the source distribution, or appended below in the binary package.

This package was first put together by Ian Jackson <ijackson@nyx.cs.du.edu> and is currently maintained by Santiago Vila <sanvila@debian.org>.

The GNU sources for this release were obtained from

<http://ftp.gnu.org/gnu/m4/m4-1.4.16.tar.bz2>

The changes were very minimal - merely adding support for the Debian package maintenance scheme, by adding various debian/* files.

Program Copyright (C) 1989-2011 Free Software Foundation, Inc.

***** man-db

This is the Debian GNU/Linux prepackaged version of the "man_db" manual page browser utility package, version 2.5.2. It was originally written by Graeme Wilford <G.Wilford@ee.surrey.ac.uk>, with documentation reorganized by Nils Magnus <n_magnus@informatik.uni-kl.de>. Until 2001 it was maintained by the late Fabrizio Polacco <fpolacco@debian.org>. It is now maintained by Colin Watson <cjwatson@debian.org>.

The original upstream sources as maintained by Graeme Wilford are available at ftp://ftp.ee.surrey.ac.uk/pub/software/unix/wilf/man_db/.

The current upstream source is held in Bazaar at <http://man-db.nongnu.org/>, and future upstream releases will take place from there.

***** postfix

This is the Debian GNU/Linux prepackaged version of Postfix, a mail transport agent.

Postfix was created by Wietse Venema <wietse@porcupine.org>; the Debian package has been assembled by LaMont Jones <lamont@debian.org> from sources available from <http://www.postfix.org>, and can be cloned from git via:
git clone git://git.debian.org/~lamont/postfix.git

Copyright (c) 1999, International Business Machines Corporation and others. All Rights Reserved.

The following copyright and license applies to this software:

IBM PUBLIC LICENSE VERSION 1.0 - SECURE MAILER

THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS IBM PUBLIC LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

1. DEFINITIONS

"Contribution" means:

- a) in the case of International Business Machines Corporation ("IBM"), the Original Program, and
- b) in the case of each Contributor,
 - i) changes to the Program, and
 - ii) additions to the Program;where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf.

Contributions do not include additions to the Program which:

- (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and
- (ii) are not derivative works of the Program.

"Contributor" means IBM and any other entity that distributes the Program.

"Licensed Patents " mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Original Program" means the original version of the software accompanying this Agreement as released by IBM, including source code, object code and documentation, if any.

"Program" means the Original Program and Contributions.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS

A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that:

- a) it complies with the terms and conditions of this Agreement; and
- b) its license agreement:
 - i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;
 - ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;
 - iii) states that any provisions which differ from this Agreement

- are offered by that Contributor alone and not by any other party; and
- iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.

When the Program is made available in source code form:

- a) it must be made available under this Agreement; and
- b) a copy of this Agreement must be included with each copy of the Program.

Each Contributor must include the following in a conspicuous location in the Program:

Copyright (c) 1997,1998,1999, International Business Machines Corporation and others. All Rights Reserved.

In addition, each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must:

- a) promptly notify the Commercial Contributor in writing of such claim, and
- b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Commercial Contributor's responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to

pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is solely responsible for determining the appropriateness of using and distributing the Program and assumes all risks associated with its exercise of rights under this Agreement, including but not limited to the risks and costs of program errors, compliance with applicable laws, damage to or loss of data, programs or equipment, and unavailability or interruption of operations.

6. DISCLAIMER OF LIABILITY

EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

If Recipient institutes patent litigation against a Contributor with respect to a patent applicable to software (including a cross-claim or counterclaim in a lawsuit), then any patent licenses granted by that Contributor to such Recipient under this Agreement shall terminate as of the date such litigation is filed. In addition, If Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

IBM may publish new versions (including revisions) of this Agreement from time to time. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. No one other than IBM has the right to modify this Agreement. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.

This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

SENDMAIL LICENSE

The following license terms and conditions apply, unless a different license is obtained from Sendmail, Inc., 6425 Christie Ave, Fourth Floor, Emeryville, CA 94608, or by electronic mail at license@sendmail.com.

License Terms:

Use, Modification and Redistribution (including distribution of any modified or derived work) in source and binary forms is permitted only if each of the following conditions is met:

1. Redistributions qualify as "freeware" or "Open Source Software" under one of the following terms:
 - (a) Redistributions are made at no charge beyond the reasonable cost of materials and delivery.
 - (b) Redistributions are accompanied by a copy of the Source Code or by an irrevocable offer to provide a copy of the Source Code for up to three years at the cost of materials and delivery. Such redistributions must allow further use, modification, and redistribution of the Source Code under substantially the same terms as this license. For the purposes of redistribution "Source Code" means the complete compilable and linkable source code of sendmail including all modifications.
2. Redistributions of source code must retain the copyright notices as they appear in each source code file, these license terms, and the disclaimer/limitation of liability set forth as paragraph 6 below.
3. Redistributions in binary form must reproduce the Copyright Notice, these license terms, and the disclaimer/limitation of liability set forth as paragraph 6 below, in the documentation and/or other materials provided with the distribution. For the purposes of binary distribution

the "Copyright Notice" refers to the following language:
"Copyright (c) 1998-2000 Sendmail, Inc. All rights reserved."

4. Neither the name of Sendmail, Inc. nor the University of California nor the names of their contributors may be used to endorse or promote products derived from this software without specific prior written permission. The name "sendmail" is a trademark of Sendmail, Inc.
5. All redistributions must comply with the conditions imposed by the University of California on certain embedded code, whose copyright notice and conditions for redistribution are as follows:
 - (a) Copyright (c) 1988, 1993 The Regents of the University of California. All rights reserved.
 - (b) Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:
 - (i) Redistributions of source code must retain the above copyright notice, this list of conditions and the following disclaimer.
 - (ii) Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.
 - (iii) Neither the name of the University nor the names of its contributors may be used to endorse or promote products derived from this software without specific prior written permission.
6. Disclaimer/Limitation of Liability: THIS SOFTWARE IS PROVIDED BY SENDMAIL, INC. This is the Debian prepackaged version of the "procmail" mail-processing program written by Stephen van den Berg.

This package is currently maintained by Santiago Vila <sanvila@debian.org>. The source for this release was downloaded from:

<ftp://ftp.procmail.org/pub/procmail/procmail-3.22.tar.gz>

This package was first put together by Bruce Perens <bruce@hams.com>, who added Debian package maintenance system files, and edited config.h to configure for Debian.

Please chose a license for your packaging work. If the program you package
uses a mainstream license, using the same license is the safest choice.
Please avoid to pick license terms that are more restrictive than the
packaged work, as it may make Debian's contributions unacceptable upstream.
If you just want it to be GPL version 3, leave the following lines in.

The license of the RFC documents have been changed on November 10, 2008. Most
importantly,
any RFC before this date may not be modified, and derivative works of it may not
be created,
except to publish it as an RFC and to translate it into languages other than
English end
other than to extract the MIB as-is for separate use. MIBs contained in RFCs
published
after this date, however, may be used under the BSD license below.

License of mibrfcs/rfc1155-5324.txt (published before November 10, 2008):

This document and translations of it may be copied and furnished to
others, and derivative works that comment on or otherwise explain it

or assist in its implementation may be prepared, copied, published and distributed, in whole or in part, without restriction of any kind, provided that the above copyright notice and this paragraph are included on all such copies and derivative works. However, this document itself may not be modified in any way, such as by removing the copyright notice or references to the Internet Society or other Internet organizations, except as needed for the purpose of developing Internet standards in which case the procedures for copyrights defined in the Internet Standards process must be followed, or as required to translate it into languages other than English.

The limited permissions granted above are perpetual and will not be revoked by the Internet Society or its successors or assignees.

RFC 3978 clarifies the use of MIBs contained in these RFCs:

In the cases of MIB or PIB modules and in other cases where the Contribution includes material that is meant to be extracted in order to be used, the following should be appended to statement 5.2 (a) or 5.2 (b):

"other than to extract section XX as-is for separate use."

IETF TRUST Legal Provisions Relating to IETF Documents
Approved November 6, 2008
Effective Date: November 10, 2008

1. Background

The IETF Trust was formed on December 15, 2005, for, among other things, the purpose of acquiring, holding, maintaining and licensing certain existing and future intellectual property used in connection with the Internet standards process and its administration, for the advancement of science and technology associated with the Internet and related technology. Accordingly, pursuant to RFC 5378, Contributors to the IETF Standards Process grant the IETF Trust certain licenses with respect to their IETF Contributions. In RFC 5377, the IETF Community has provided the IETF Trust with guidance regarding licenses that the IETF Trust should grant to others with respect to such IETF Contributions and IETF Documents. These

Legal Provisions describe the rights and licenses that the IETF Trust grants to others with respect to such IETF Contributions and IETF Documents; as well as certain restrictions, limitations and notices relating to IETF Documents. Capitalized terms used in these Legal Provisions that are not otherwise defined have the meanings set forth in RFC 5378.

2. Applicability of these Legal Provisions.

a. These Legal Provisions are effective as of November 10, 2008 (the "Effective Date").

b. The licenses granted by the IETF Trust pursuant to these Legal Provisions apply only with respect to (i) IETF Contributions (including Internet-Drafts) that are submitted to the IETF following the Effective Date, and (ii) IETF RFCs and other IETF Documents that are published after the Effective Date.

c. IETF Contributions made, and IETF Documents published, prior to the Effective Date ("Pre-Existing IETF Documents") remain subject to the licensing provisions of the IETF copyright policy document in effect at the time of their publication, including RFCs 1310, 1602, 2026, 3978 and 4748.

d. In most cases, rights to Pre-Existing IETF Documents that are not expressly granted under these RFCs can only be obtained by requesting such rights directly from the document authors. The IETF Trust and the Internet Society do not become involved in making such requests to document authors.

e. These Legal Provisions may be amended from time to time by the IETF Trust in a manner consistent with the guidance provided by the IETF community and its own operating procedures. Any amendment to these Legal Provisions shall be posted for review at <http://trustee.ietf.org/policyandprocedures.html> and shall become effective on a date specified by the IETF Trust, but no earlier than thirty (30) days following its posting. Such amendment shall apply with respect to all IETF Contributions made and IETF Documents published following the effective date of such amendment. All prior versions of these Legal Provisions shall continue to be posted at <http://trustee.ietf.org/policyandprocedures.html> for reference with respect to IETF Contributions and IETF Documents as to which they may apply.

3. Licenses to IETF Documents and IETF Contributions.

a. License For Use Within the IETF Standards Process. The IETF Trust hereby grants to each participant in the IETF Standards Process, to the greatest extent that it is permitted to do so, a non-exclusive, royalty-free, worldwide right and license under all copyrights and rights of authors:

i. to copy, publish, display and distribute IETF Contributions and IETF Documents, in whole or in part, as part of the IETF Standards Process, and

ii. to translate IETF Contributions and IETF Documents, in whole or part, into languages other than English as part of the IETF Standards Process, and

iii. unless explicitly disallowed in the notices contained in an IETF Contribution or IETF Document (as specified in Section 6.b below), to modify or prepare derivative works of such IETF Contributions or IETF Documents, in whole or in part, as part of the IETF Standards Process.

b. IETF Standards Process. The term IETF Standards Process has the meaning assigned to it in RFC 5378. In addition, the IETF Trust interprets the IETF Standards Process to include the archiving of IETF Documents in perpetuity for reference in support of IETF activities and the implementation of IETF standards and specifications.

c. Licenses For Use Outside the IETF Standards Process. In addition to the rights granted with respect to Code Components described in Section 4 below, the IETF Trust hereby grants to each person who wishes to exercise such rights, to the greatest extent that it is permitted to do so, a non-exclusive, royalty-free, worldwide right and license under all copyrights and rights of authors:

i. to copy, publish, display and distribute IETF Contributions and IETF Documents in full and without modification,

ii. to translate IETF Contributions and IETF Documents into languages other than English, and to copy, publish, display and distribute such translated IETF Contributions and IETF Documents in full and without modification,

iii. to copy, publish, display and distribute unmodified portions of IETF Contributions and IETF Documents and translations thereof, provided that:

(x) each such portion is clearly attributed to IETF and identifies the RFC or other IETF Document or IETF Contribution from which it is taken,

(y) all IETF legends, legal notices and indications of authorship contained in the original IETF RFC must also be included where any substantial portion of the

text of an IETF RFC, and in any event where more than one-fifth of such text, is reproduced in a single document or series of related documents.

d. Licenses that are not Granted. The following licenses are not granted pursuant to these Legal Provisions:

i. any license to modify IETF Contributions or IETF Documents, or portions thereof (other than to make translations or to extract, use and modify Code Components as permitted under the licenses granted under Section 4 of these Legal Provisions) in any context outside the IETF Standards Process, or

ii. any license to publish, display or distribute IETF Contributions or IETF Documents, or portions thereof, without the required legends and notices described in these Legal Provisions.

e. Requesting Additional Rights. Anyone who wishes to request license rights from the IETF Trust in addition to those granted under these Legal Provisions may submit such request to trustees@ietf.org. Such request will be considered by the IETF Trust, which will make a decision regarding the request in its sole discretion and inform the requester of its disposition. In addition, individual Contributors may be contacted regarding licenses to their IETF Contributions. The IETF Trust does not limit the ability of IETF Contributors to license their Contributions, so long as those licenses do not affect the rights granted to the IETF Trust under RFC 5378.

4. License to Code Components.

a. Definition. IETF Contributions and IETF Documents often include components intended to be directly processed by a computer („Code Components,“). A list of common Code Components can be found at <http://trustee.ietf.org/policyandprocedures.html> .

b. Identification. Text in IETF Contributions and IETF Documents of the types identified in Section 4.a above shall constitute „Code Components,“ . In addition, any text found between the markers <CODE BEGINS> and <CODE ENDS>, or otherwise clearly labeled as a Code Component, shall be considered a „Code Component,“.

c. License. In addition to the licenses granted under Section 3, Code Components are also licensed to each person who wishes to receive such a license on the terms of the "BSD License", as described below. If a licensee elects to apply the BSD License to a Code

Component, then the additional licenses and restrictions set forth in Section 3 and elsewhere in these Legal Provisions shall not apply thereto.

BSD License:

Copyright (c) [insert year] IETF Trust and the persons identified as the document authors. All rights reserved.

Redistribution and use in source and binary forms, with or without modification, are permitted provided

that the following conditions are met:

,Ä¢ Redistributions of source code must retain the above copyright notice, this list of conditions and the following disclaimer.

,Ä¢ Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.

,Ä¢ Neither the name of Internet Society, IETF or IETF Trust, nor the names of specific contributors, may be used to endorse or promote products derived from this software without specific prior written permission.

THIS SOFTWARE IS PROVIDED BY THE COPYRIGHT HOLDERS AND CONTRIBUTORS "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE COPYRIGHT OWNER OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

The above BSD License is intended to be compatible with the BSD License template published

at <http://opensource.org/licenses/bsd-license.php> .

d. Attribution. Those who use Code Components under the license granted under Section 4.c above are requested to attribute each such Code Component to IETF and identify the

RFC or other IETF Document or IETF Contribution from which it is taken. Such attribution

may be placed in the code itself (e.g., ,ÄúThis code was derived from IETF RFC [insert RFC

number]. Please reproduce this note if possible.,Äù) or any other reasonable location.

5. License Limitations.

a. No Patent License. The licenses granted under these Legal Provisions shall not be deemed to grant any right under any patent, patent application or similar intellectual property right.

b. Supersedure. The terms of any license granted under these Legal Provisions may be superseded by a written agreement between the IETF Trust and the licensee that specifically references and supersedes the relevant provisions of these Legal Provisions, except that (i) the IETF Trust shall in no event be authorized to grant rights with respect to any Contribution in excess of those which it has been granted by the Contributor, and (ii) the rights granted shall not be less than those otherwise granted under these Legal Provisions.

6. Text To Be Included in IETF Documents. The following text must be included on the first page of each IETF Document as specified below:

a. Submission Compliance for Internet-Drafts. In each Internet-Draft: This Internet-Draft is submitted to IETF in full conformance with the provisions of BCP 78 and BCP 79.

b. Copyright and License Notice. In each IETF Document (including RFCs and Internet-Drafts):
Copyright (c) [insert year] IETF Trust and the persons identified as the document authors. All rights reserved.
This document is subject to BCP 78 and the IETF Trust, 's Legal Provisions Relating to IETF Documents (<http://trustee.ietf.org/license-info>) in effect on the date of publication of this document. Please review these documents carefully, as they describe your rights and restrictions with respect to this document.

c. Derivative Works and Publication Limitations. If a Contributor desires to limit the right to make modifications and derivative works of an IETF Contribution, or to limit its publication, one of the following notices must be included. These notices may not be used with any standards-track document, nor with most working group documents.

i. If the Contributor does not wish to allow modifications, but does wish to allow publication as an RFC:
This document may not be modified, and derivative works of it may not be created, except to format it for publication as an RFC and to translate it into languages other than English.

ii. If the Contributor does not wish to allow modifications nor to allow publication as an RFC:
This document may not be modified, and derivative works of it may not be created, and it may not be published except as an Internet-Draft.

7. Terms Applicable to All IETF Documents. The following legal terms apply to all IETF Documents:

- a. All IETF Documents and the information contained therein are provided on an "AS IS" basis and THE CONTRIBUTOR, THE ORGANIZATION HE/SHE REPRESENTS OR IS SPONSORED BY (IF ANY), THE INTERNET SOCIETY, THE IETF TRUST AND THE INTERNET ENGINEERING TASK FORCE DISCLAIM ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY THAT THE USE OF THE INFORMATION THEREIN WILL NOT INFRINGE ANY RIGHTS OR ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.
- b. The IETF Trust takes no position regarding the validity or scope of any Intellectual Property Rights or other rights that might be claimed to pertain to the implementation or use of the technology described in any IETF Document or the extent to which any license under such rights might or might not be available; nor does it represent that it has made any independent effort to identify any such rights.
- c. Copies of Intellectual Property disclosures made to the IETF Secretariat and any assurances of licenses to be made available, or the result of an attempt made to obtain a general license or permission for the use of such proprietary rights by implementers or users of this specification can be obtained from the IETF on-line IPR repository at <http://www.ietf.org/ipr>.
- d. The IETF invites any interested party to bring to its attention any copyrights, patents or patent applications, or other proprietary rights that may cover technology that may be required to implement any standard or specification contained in an IETF Document. Please address the information to the IETF at ietf-ipr@ietf.org.
- e. The definitive version of an IETF Document is that published by, or under the auspices of, the IETF. Versions of IETF Documents that are published by third parties, including those that are translated into other languages, should not be considered to be definitive versions of IETF Documents. The definitive version of these Legal Provisions is that published by, or under the auspices of, the IETF. Versions of these Legal Provisions that are published by third parties, including those that are translated into other languages, should not be considered to be definitive versions of these Legal Provisions.
- f. For the avoidance of doubt, each Contributor to the IETF Standards Process licenses each Contribution that he or she makes as part of the IETF Standards Process to the

IETF Trust pursuant to the provisions of RFC 5378. No language to the contrary, or terms, conditions or rights that differ from or are inconsistent with the rights and licenses granted under RFC 5378, shall have any effect and shall be null and void, whether published or posted by such Contributor, or included with or in such Contribution.

***** snmpd

This is the Debian GNU/Linux prepackaged version of Net-SNMP.

This package was put together by David Engel <david@debian.org>, from sources obtained from <http://net-snmp.sourceforge.net/>. It is now maintained by Jochen Friedrich <jochen@scram.de>. As of version 5.4, the upstream sources contain non DFSG-free RFCs in the doc directory which has been removed for Debian.

Copyright:

Various copyrights apply to this package, listed in various separate parts below. Please make sure that you read all the parts. Up until 2001, the project was based at UC Davis, and the first part covers all code

written during this time. From 2001 onwards, the project has been based at SourceForge, and Networks Associates Technology, Inc hold the copyright on behalf of the wider Net-SNMP community, covering all derivative work done since then. An additional copyright section has been added as Part 3 below also under a BSD license for the work contributed by Cambridge Broadband Ltd. to the project since 2001. An additional copyright section has been added as Part 4 below also under a BSD license for the work contributed by Sun Microsystems, Inc. to the project since 2003.

Code has been contributed to this project by many people over the years it has been in development, and a full list of contributors can be found in the README file under the THANKS section.

Version 12.16 and above of sox is available from <http://sox.sourceforge.net>.

sox.c, and thus SoX-the user application, is distributed under the GPL.

The remaining files that make up libst are licensed under the less restrictive license LGPL.

There is currently only one exception to this. The files FFT.c and FFT.h are original from the Audacity program and fall under its license of GPL. The noise profiling and noise reduction effects both make use of this FFT code and would need to be removed from any program that requires LGPL only software.

On Debian systems, the complete text of the GNU General Public License can be found in the '/usr/share/common-licenses/GPL-2' file.
The complete text of the GNU Lesser General Public License can be found in the '/usr/share/common-licenses/LGPL-2' file.

The original copyright owner was Lance Norskog.
Current upstream development is being made by Chris Bagwell and others.
